DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 37-98]

Foreign-Trade Zone 202, Los Angeles, CA; Proposed Foreign-Trade Subzone, Tosco Refining Company (Oil Refinery Complex); Los Angeles, CA Area

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Los Angeles Board of Harbor Commissioners, grantee of FTZ 202, requesting special-purpose subzone status for the oil refinery complex of Tosco Refining Company, located in the Los Angeles, California, area. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on July 8, 1998.

The refinery complex (727 acres) is located at 4 sites in the Los Angeles, area (Los Angeles County), California: *Site 1* (118,750 BPD capacity, 425 acres)—main refinery complex, located at 1660 West Anaheim Street, some 25 miles south of downtown Los Angeles; *Site 2* (96 tanks, 3.3 mil. barrel capacity, 235 acres)—storage facility used for crude oil and intermediate feedstocks, located at 1520 East Sepulveda Blvd., 5 miles northeast of the refinery; *Site 3* (26 tanks, 840,000 barrel capacity, 17 acres)—located within FTZ 202, *Site 1*, Los Angeles Harbor Marine Terminal at Berths 148, 149, 150, 151, 1 mile southeast of the refinery; *Site 4* (24 tanks, 2.1 million barrel capacity, 50 acres)—Torrance Tank Farm used for crude oil and finished product storage, located at 2650 West Lomita Blvd., approx. 4 miles northwest of the refinery.

The refinery (575 employees) is used to produce fuels and petrochemical feedstocks. Fuel products include gasoline, jet fuel, distillates, residual fuels, naphthas and motor fuel blendstocks. Petrochemical feedstocks and refinery by-products include methane, ethane, propane, propylene, butane, petroleum coke and sulfur. Some 10 percent of the crude oil (92 percent of inputs) and some motor fuel blendstocks are sourced abroad.

Zone procedures would exempt the refinery from Customs duty payments on the foreign products used in its exports. On domestic sales, the company would be able to choose the Customs duty rates that apply to certain petrochemical feedstocks and refinery by-products (duty-free) by admitting incoming foreign crude oil and natural gas condensate in non-privileged foreign status. The duty rates on inputs range from 5.25¢/barrel to 10.5¢/barrel. The application indicates that the savings from zone procedures would help improve the refinery's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is September 14, 1998.

Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to September 29, 1998.

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

U.S. Department of Commerce, Export Assistance Center, 11000 Wilshire Blvd., Room 9200, Los Angeles, California 90024
